

# ATMOSPHERIC LUNCH SEMINARS

Researchers of the main Institutions of the Bologna territory involved in Atmospheric Science studies are glad to introduce some of their main lines of research to the Students of the LM in Fisica del Sistema Terra and to everybody else interested in such topics.

## SCHEDULE

- 18 March: Prof. F. Porcù (University of Ferrara) *Remote sensing della precipitazione solida in Antartide*
- 1 April: Dott. F. Grazzini (ARPA-SIMC) *L'incertezza della previsione*
- 15 April: Dott.ssa B.M. Dinelli (ISAC-CNR) *Misure della composizione atmosferica con la spettroscopia infrarossa*
- 29 April: Dott. A. Bellucci (CMCC) *Decadal Climate Predictability*
- 13 May: Dott.ssa M. S. Tesini (ARPA-SIMC) *La verifica dei modelli di previsione meteorologica*

All the presentations will be held in **Aula 1** at the Physics and Astronomy Department in viale Berti Pichat 6/2 starting at **1.00 pm**. The talks will approximately last 45 minutes and 5 to 10 minutes will be dedicated to questions and discussion.

Further presentations might be added to the schedule as new confirmations are received. Program's updates will be sent as soon as possible.

NB: Given the scheduled time it is allowed to bring food in the room (please avoid crunchy meals).
